

# Gilead's Research Scholars Program in Oncology Solid Tumors

The Research Scholars Program supports innovative research from emerging investigators around the world to incorporate new perspectives in our pursuit of scientific understanding and progress. We believe that new voices and research topics are needed to advance scientific knowledge in areas of unmet medical need and create a healthier world.

The program is designed to support innovative basic, translational, and clinical scientific research related to Oncology Solid Tumors in Europe, Australia and Canada.

The Solid Tumors program provides a minimum of 3 awards

Each award is funded up to **\$130,000\* USD** for two years, to be paid in annual installments of up to **\$65,000 USD** per year\*

Applications will be reviewed and selected by an independent Scientific Review Committee comprised of internationally recognised experts in basic, translational, and clinical research in the field of Oncology Solid Tumors.

Gilead's Research Scholars Program is committed to building a more diverse and inclusive scientific community.

## Eligibility Criteria

Applicant must have:

- Hold an MD, or PhD, (or equivalent degree) at time of award. MD qualifications would have to have been obtained within the last 10 years and PhD qualifications would have to have been obtained within the last 5 years
- Early to Mid-career scientists with a strong research track record who hold a position as a recognised research institution in one of the eligible countries at the time of application and whose tenure of that position encompasses the projected period of the award from the Gilead scholarship program
- Have a strong career interest in Oncology Solid Tumors
- Have a research mentor with extensive experience in the field of Oncology Solid Tumors
- Be able to devote at least 30% of their professional time to research for the next two years
- Be able to complete the proposed research within the 2-year award period

## Citizenship

The Research Scholars Program in Solid Tumors is open to emerging investigators from countries with the following regions and countries:

- Europe (all countries)
- Australia
- Canada

An applicant must be a citizen or permanent resident of one of the eligible countries or hold a temporary visa/work permit. This visa must be valid for the duration of the award period or the applicant must be able to demonstrate that they are eligible for an extension, renewal or other status that will enable the applicant to undertake the research for the entirety of the two-year award.
